

S2

INTEGRATED WORLD'S LIGHTEST & SMALLEST

The **S2 Integrated** is the **ultimate evolution** for thermal imaging cameras, weighing **only 600g** the **S2** utilises a battery integrated into the camera housing.

The S2 Integrated is the Worlds lightest and smallest camera of its kind and capable of being used as a hand held or hands free camera. Each camera comes with two cell phone size batteries for over four hour's operation and a standard neck strap which allows the unit to be hung over the neck, like a pair of binoculars.

The S2 Integrated is lightweight, compact and robust with each camera passing GB SOLO's quality control after a 2 metre drop test,

320°C controlled oven test and 1.5 metre water submersion. Due to the weight and size of the new S2 Integrated it also has the capability of being attached to a person, via a lanyard, for easy grab and use.

For more information on the S2 Integrated or any of GB SOLO's unique products, please contact mark.smith@gbsolo.co.uk or phone +44 (0) 1609 881855.

WATER RESCUE

FIRE & RESCUE SERVICES ENLIST THE HELP OF THE S2 THERMAL IMAGING CAMERA

The devastation caused by floods experienced throughout the UK in recent years have prompted many Fire & Rescue Services to re-think how they handle these crises. Two of Britain's largest emergency services have enlisted the help of GB SOLO and have placed orders for the S2 Search & Rescue Thermal

Imaging Camera. Royal Berkshire and Tyne & Wear Fire & Rescue Services have recently ordered several cameras to help them cope with the many dangerous situations they have been faced with. Not only can they detect people and family pets who are in life-threatening situations, they can also tell where

moisture is held in buildings, letting them know whether the structure is safe to enter. The S2 has proved invaluable for many emergency services and this is another area in which it could save the lives of both victims and personnel.

WANTED... AGENTS WITHIN THE TERRITORY OF EUROPE

GB SOLO are actively seeking agents to help realise the potential for TIC sales.

WELCOME

GB SOLO Limited would like to offer a warm welcome to four new agents which have joined us

- Falck based in Denmark
- Ranplan based in China
- Hedgren S.A. based in Argentina
- Gulf Group based in Kuwait.

GB SOLO WELCOME A NEW MEMBER TO THE TEAM

GB SOLO are once again pushing boundaries with the introduction of new products and advanced technologies that continue to bring them to the forefront of the industry.

Our client base now spans the globe and we have achieved unprecedented growth throughout the last 18 months. This is testament to the team that Managing Director, Victoria McLaren, has brought together and this week she announced the introduction of a new addition to their team.

Mark Smith has joined GB SOLO as Sales Manager and will work on key accounts throughout the UK and Europe. Mark joins the company having previously worked for Persides Ltd., catering for the defence and aerospace sector. He has worked with, and has contacts throughout, military and police forces. This is invaluable in the research and development of the GB SOLO range of products and

it has also given Mark the experience and knowledge needed to offer the best possible service to many of our larger clients.

Mark is fully up to date with all the products and services GB SOLO offer and has worked previously with similar products. He is delighted to join a company like GB SOLO and said "GB SOLO have the reputation and vision to become market leaders through their innovation and creativity. I am looking forward to working with such a creative team selling products that help save lives." GB SOLO welcome people to contact them and set up a demonstration with Mark. They also have a presence around the world through GB SOLO agents operating on various continents.

You can meet Mark at the **Emergency Services Show 2009** at Coventry.

Contact GB SOLO on +44 (0)1609 881855 for further details or to arrange a demonstration.

DON'T MISS US

DON'T FORGET TO COME AND SEE US AT STAND 73 AT THE EMERGENCY SERVICES SHOW IN NOVEMBER AT COVENTRY.

Our sales team will have the full product range available to see and test.

Alternatively if you would like to set up an appointment or see a specific product please contact our sales office on +44 (0) 1609 881855.
